

Manual to determine your ringsize

This manual is printed in actual size

Important

Check if the scale below is 5 cm to determine if the manual is printed in actual size before you start

How to determine your ring size ?

STEP 1 :

Take an existing ring that fits around the finger where you want to wear daNicci

STEP 2 :

Place the ring on the circles below and determine your size. The circle must match the inside of your ring

Alternative:

Don't have a suitable ring ? Then take a pece of string and put it around your finger, not too tight. The length of the rope is your size. For example, 56 mm long is size 56.
